

CLEANUP FROM RECENT ICE STORM

Any Oskaloosa resident who had trees or limbs downed from the recent ice storm may take the debris to the city snow dump area off of Suffolk Road. If you are unable to haul the debris yourself, place the debris on the parking area and city crews will eventually pick it up. If you do place your branches out for pickup, please be patient as it may be some time before the city crews are able to get to your location. The city will not pick up any tree debris that obviously was not the result of the last storm. If you have any questions, contact the Street Department at 673-6885 or City Hall at 673-9431.
