Mike Flahive,

03-23-2022

Just submitting this letter in regards to our conversation we had at City Hall today. We are requesting a height variance of 35' (ft) as to not conflict with Casey's general Store. Our sign would block one side of their on-premise sign and their sign would block one side of ours. We will be 25' (ft) above grade to the bottom of our sign and an overall height of 35' (ft). In regards to the zoning being residential in a commercial area, you advised that we would be okay that it was mixed. I did complete and submitted the "City Owned Property Bid-Form / Purchase Application. Thank you and feel free to call if you need anything further.

Respectfully Submitted,

Danny Marler

Project Manager
